## First Valuations of Tax Year Show Cut

A reduction of \$648,160 in Madison County railroad and capital stock property assessments has been certified to the office of County Clerk Eulalia Hotz by the Illinois State Department of Revenue.

Miss Hotz said the county's total railroad assessment for the 1971 tax year, upon which bills will be based for collection this summer, has been set at \$15,473,315, a cut of \$502,860 below the 1970 valuation of \$15,976,175.

The new capital stock assessment totals \$3,387,700, or \$145,200 less than the \$3,532,900 valuation for the 1970 tax year.

The assessments are the first to be announced by the county clerk's office for the 1971 tax year. Capital stock and railroad valuations are determined

## Pontoon Board Hires New Police Dispatcher

Alois Reigert, 57, of 4249 E. Lake Drive, was hired by the Pontoon Beach Village Board Thursday night as a full-time village police department dispatcher, replacing Sister Mary Cornelia Hawkins.

Sister Cornelia was suspended from her duties Jan. 13 by the board, allegedly for breaking department rules by airing complaints on department operations to a public meeting without consulting the police chief.

A grand jury investigation into village activities followed. Reigert's wages were set at \$1.40 per hour.

In other action Thursday night the village board approved the appointment of Vince Thorp, 66, of 4144 Lake

Drive, as village rabies control officer at a salary of \$25 per month.

Despite a citizen complaint, the board approved overtime pay at regular wages for village policemen, not to exceed five hours per week.

An ordinance which was passed by the board in December 1970 but never received in writing for official signatures was presented and signed Thursday night. It limits the number of liquor licenses in the village to eight, six for taverns and two for package liquor stores.

A letter from William Schooley, village attorney, informing the board that it did

## Citizens to Focus on County Board in Effort to Block Mobile Home Approval

A large-scale citizen effort is being made to persuade the Madison County Board to block a 172-acre residential-industrial-commercial-recreational development.

Vocal opponents of the project are circulating petitions and contacting board members. The strategy was planned at a meeting attended by 15 persons held Friday night at the home of Mrs. Margaret McQuade of Granite City.

Choosing the name of Group Rebellion Against Sasyk Project, the committee centered most of its criticism on a proposal for up to 3,000 mobile homes. Three hundred apartments also are planned, as well as a golf course, stores and industrial park.

Mayor Mike Sasyk of Madison and 11 others are participating in the development.

A recommendation by the Zoning Board of Appeals, to rezone the area from agricultural to, was considered at the Feb. 16 session's meeting and was deferred until April 19.

Mrs. McQuade and Mrs. Gal Gafgar, also of Granite City, were selected as co-chairmen of the organization opposing the project.

It was decided to circulate petitions throughout Community Unit School District No. 9, on the theory that provisions of school facilities and service to mobile home residents would cost the school system more than the tax revenue derived.

A new mobile home tax going into effect July 1 will produce about \$100 per year from each such home.

The petitioners call on the County Board to "reject or further delay action on the proposal for a mobile home development of 30 acres in the Chouteau Township area north of Interstate 270 and east of Route 111."

"We believe the taxes from this vast development will pay only a small fraction of the school costs for the thousands of students that would come into our district and would thus result in higher taxes for the present residents."

The petitioners also voice concern about the ability of government to economically fulfill its obligations in such fields as drainage, law enforcement, public aid, fire protection and road maintenance.

A statement prepared Friday night expresses the opposition group's viewpoint cited school statistics and concluded that a "financial disaster" could develop, with property values affected.

## \$589,000 Saved Through Volume Buying by Local, State Agencies

Local governments in 30 Illinois counties are participating in a program to save more than a half-million dollars, according to Thomas B. Blanco, state purchasing agent.

Purchasing such things as

It assailed the presence of a governmental official among developers seeking governmental approval for the project, and speculated that higher taxes may result.

The Group Rebellion commented, "From his remarks in the press, Mayor Sasyk apparently hopes to attract people from the St. Louis

side of the river, where mobile home restrictions are very severe.

"Considering that we are already absorbing St. Louis trash at landfills, it seems incredible that we should help Missouri with another tax bargain."

"Superficially, Mayor Sasyk has a development plan with

something for everybody," Group Rebellion said.

The committee added that there is no guarantee that all phases of the multi-million-dollar development will be carried out; it said that perhaps only two mobile home phases will be implemented.

Group Rebellion compared 3,000 mobile home units to Mad-

ison County communities and expressed the opinion that the population might exceed all existing cities other than Granite City and Alton.

The group related the proposal to current efforts to attract new commercial and industrial development and questioned whether the impact on such efforts would be favorable.

**GUTTED INTERIOR** of the former Hideaway Lounge, East Chain of Rocks and St. Thomas roads, after firemen extinguished two fires there Friday. They first were called at 12:30 a.m. Friday to extinguish a fire on the outside of the building. After that fire was extinguished, firemen received a

report there was 150 pounds of TNT explosive in the building. That report was false, firemen said. They were called back at 2:30 p.m. after flames broke out inside the building. Arson is suspected in both fires.

## 'Bomb' Reports Hamper Firemen

Two fires Friday caused extensive damage to the vacant Hideaway Lounge, East Chain of Rocks and St. Thomas roads, Mitchell volunteer firemen fought the two blazes despite a report that 150 pounds of TNT explosive were inside the building. The report was false.

Firefighters first were called to the scene at 12:30 a.m. Friday when gasoline or another substance, apparently, was poured on a boarded-up window and ignited.

The fire caused only minor damage to the exterior of the building.

## Animal Protective Group Probes Dog Killings Here

A young male German shepherd dog owned by Elizabeth Nunery, 2100 E. 29th St., was beaten and stabbed to death while it was chained to its doghouse Thursday night.

It was the second slaughter of a dog in recent weeks. The first, killed on Feb. 23, also was beaten and stabbed. It was a registered male wire-haired terrier owned by James Edward Wynick, 2119 Benton St.

Mrs. Nunery's dog was behind her tavern when patrons heard the sounds of whining and barking and spotted a dark auto speed around the corner from the back of the tavern before 8 p.m.

There was a large wound in the throat area, and the shepherd dog died to death. A soda bottle was found inside the doghouse and a broken beer bottle on the ground nearby. Another

After firemen extinguished the flames, a call was received on the fire telephone, in which a man said an explosive was in the building. Firemen notified the Madison County Sheriff's Department and left.

At 2:30 p.m., firemen again were called to the tavern where flames had broken out inside the building.

Still uncertain whether there were any explosives present, they entered and fought the fire. The interior of the tavern was gutted.

Later sheriff's deputies and specialists from the bomb squad at the Granite City Army Installation searched through the rubble. No explosives were found.

## College Not the Only Path To Satisfying Career - Ross

D. Reid Ross told a conference of Illinois educators at Peoria Thursday that an entire generation of young Americans has been led to believe that "the only first class citizens in the United States are college graduates."

Ross, executive vice-president of the St. Louis Regional Industrial Development Corp., was one of two keynote speakers at the 43rd annual convention of the Illinois Vocational Association, a teacher group. Ross shared the keynote rostrum with Congressman Roman C. Pucinski (Illinois Democrat).

Noting that half the students who enter college are destined to become drop-outs, that many college graduates including scientists and engineers are unemployed, and that each year "a rising surplus of college graduates compete for a declining number of jobs requiring a college degree," Ross called for a reordering of national educational priorities to stress vocational-technical opportunities and approaches.

He told the educators that an RDC survey of high schools throughout the St. Louis bi-state region revealed that over 75% of the students were taking college preparatory courses despite official U.S. estimates that "four out of five jobs created in the '70s will require vocational-technical education but not a college diploma."

## Simon Calls for Tax Reform To Benefit Property Owners

"Through the years, Paul Simon has always favored tax reform. But I strongly oppose any overall increased tax bite on already oppressed taxpayers," Lieutenant Governor Paul Simon said last week in Alton.

"I will veto any proposed income tax increase that does not carry with it substantial reform, including reduction of other state taxes. This emphasis has been lost in some recent press reports," Simon said.

He addressed a "breakfast for Paul Simon" at the United Steelworkers Hall.

"Tax reform can begin by moving away from such heavy reliance on the real estate and personal property taxes for school financing. I also favor abolishing the sales tax off base."

"While I am not calling for a total increase, I do say reform is necessary. For instance, the assessed value of the school districts in Madison County is less than \$15,000 per pupil, compared with the statewide average of \$27,500 per pupil. That means we have to tax property at a higher rate in order to raise the same amount of funds."

"Financing the schools does equitably means shifting some of the burden from those who are less able to pay to those who are more able. Politicians who claim anything else or who plan to take a politically unpopular second trip and admit honestly that money removed one place must be replaced somewhere else."

"It is politically popular to talk about increasing taxes while reducing taxes. Illinois needs more leaders who are willing to take a politically unpopular second trip and admit honestly that money removed one place must be replaced somewhere else."

"The commission announced by the governor in his State of the State message in January after he first promised such a commission—must not be allowed to stall. We have already begun on devising a new formula or to postpone our discussion of this pressing issue. It is politically safe," Simon concluded.

## Income Tax Deductions For Moving Costs Vary

(Internal Revenue Service)

Q: My employer transferred me to another state last year and as a result I paid for a moving expense deduction.

A: In addition my wife and I are thinking of filing separate returns.

Q: Are the dollar limitations on moving expenses different for spouses filing jointly and separately?

A: In addition to direct costs of moving, expenses may be deducted for the sale or purchase of a residence or the termination of acquisition of a lease, household goods and temporary lodging and meals at the new location.

However, the total deduction for these three categories cannot exceed \$2,500 with the last year limited to no more than \$1,000 in total.

The limitation is half the above amounts, \$1,250 and \$500, for certain married couples filing separate returns.

However, if you and your wife file separate income tax returns and one of the following circumstances exists, the \$1,250 and \$500 limitations do not apply:

1) Only one spouse commences work at a new principal place of work for which a deduction is allowable, or

2) Both spouses commence work at new principal places of work which are at least 50 miles apart and they do not reside together at the same residence during the taxable year.

Under the second situation, a husband and wife filing a joint return may each deduct up to \$2,500 for expenses in connection with the sale or purchase of a residence or the termination or acquisition of a lease and \$1,000 for expenses for household goods, trips and temporary lodging and meals at the new location.

Married couples who meet the qualifications under the revised rules may disregard the higher limitations for married filing separately listed on Form 3903, Moving Expense Adjustment.

Q: Some friends and I are planning to form an investment club.

A: Does the IRS have a publication on the tax duties and responsibilities of such a club and its members?

3) Yes. Call your local IRS office or write to your IRS district office and ask for a copy.

Q: Do you have to use sales tax tables to figure your instructions to compute your sales tax deduction?

A: No. If you keep records, you can deduct the actual amounts you paid in sales tax for 1971.

However, if you use the sales tax tables to determine your deduction, you may add to the amount shown sales tax paid on the purchase of automobiles, airplanes, boats, mobile homes and materials to build your own home.

Q: My son purchased a car last year. Does the amount he paid count toward his support when I figure out whether or not I can claim him as a dependent?

A: No. The purchase of an automobile, whether by you or your dependent, is not considered when determining total support.

Q: If I let the IRS compute my tax, will it delay and refund I may have coming?

A: No. The IRS can compute the tax and issue a refund within 4-6 weeks from the date the return is filed with the service center.

So, actually, your refund will not be delayed by having IRS compute the tax since the computations are returned on all returns received.

## Election Issues to Include Ecology, Consumerism in '72

By EDWARD NEILAN  
Capcity news service

Washington—The environment and consumerism are two relative newcomers as presidential campaign issues.

Neither has a chance of outstripping war and money as major issues in the 1972 race for the White House, but plenty of words will be expended on these topics before November.

After a fast start, the sweeping environmental question has cooled somewhat as a political issue.

Nevertheless, says Leonard Bickwitz Jr., staff counsel for the Senate Commerce Committee, "the issue of a cleaner en-

vironment has established itself firmly in the political dialogue. Within the administration, the subject has champions and detractors."

Bickwitz notes a more cautious approach to environmental legislation developing, but feels the caution does not threaten the strength of the environmental movement.

"There was a time in this town when all you had to do was put the word 'environment' in a bill and it would go through. That time has passed."

But he said there is more discussion than ever at the grassroots community level on the dollars-and-cents cost of environmental control.

"This means the issue is now affecting voters where they live, not just in the headlines," Bickwitz said.

One Washington observer described the differences within the administration on how pollution abatement programs affect the economy as a boxing match between the Commerce Department and Council on Environmental Quality Chairman Russell Train, with President Nixon as referee.

Another development within the administration is the new profile posture of William D. Ruckelshaus, administrator of the Environmental Protection Agency.

He has incurred some White House wrath by tromping on the toes of big industrialists—who also happen to be hefty contributors to Republican campaigns—for their polluting activities.

Ruckelshaus has noted reful-

ly that "everybody applauded" when President Nixon signed the Environmental Policy Act of Jan. 1, 1970, and proclaimed that the "nineteen seventies must be the years when America pays debts to the past by restoring the purity of its air, its waters and our living environment. It is literally now or never."

But now, Ruckelshaus says, "we are faced with the task of telling people how much it's going to cost—that sometimes hurts."

"I don't think there is any lack of commitment to doing something about the problem," said Ruckelshaus. "The question is—what is the best way to do it?"

The administration, meanwhile, is keeping one eye on the political calendar as it assembles its environmental legislation for the second session of Congress.

Consumerism, like the environment, is another of those issues which everyone supports in principle but which arouses disputes in the search for solutions.

Over bitter arguments, intense lobbying and against the wishes of Ralph Nader and the U. S. Chamber of Commerce, the House in 1971 passed its bill (H.R. 10835) to establish a new independent consumer protection agency.

The bill next goes to the Senate where more stormy weather is forecast and where several 1972 presidential candidates are expected to seize upon it to gain political points.

One of the questions to be re-

solved between the bills is the degree of political independence the head of the proposed agency would have.

Both bills provide for presidential nomination of the agency's top two officials, with confirmation by the Senate.

The Senate bill set a specific term of four years, making the officials removable from office only for cause. Under the House bill, they would serve—as do Cabinet officials—at the pleasure of the president.

Sen. Philip A. Hart, D-Mich., a ranking member of the Commerce Committee, will push for more insulation for the agency from political pressures.

He says the matter is really "academic" since "as long as the agency must answer to the president, obviously it must sing his song."

"The facts of life," said Hart, "are that the interests of a politician who heads our country regardless of the political party—do not always coincide with the best interests of consumers."

### Air Pollution Control Board Meeting Tonight

Presentation of the 1971 annual report and discussion of a 1972-73 application for a federal grant are on the agenda for the monthly meeting of the Granite City Air Pollution Control Board at 7:30 p.m. today in the conference room of the City Hall.

Other business will include discussion of office procedures in processing citizen complaints, and a review of activities thus far in starting the new city air pollution control department.

## Warrior Ripka Named To All-State Cage Team

Terry Ripka, Granite City High School's super-star cager, has been named to the Illinois All-State High School Basketball Team by the Associated Press.

The wire service picked 14 standouts from throughout the state, including three from the undefeated and top-ranked Thornridge team.

Ripka, out for three games late in the season, wound up his prep career with a 27.4 average and also led the local Warriors with a total of 189 rebounds.

His average might have been better had he not been hampered by an ankle injury prior to the regional championship game here. He was held to 12 points in the finale in contrast to 50 in a showing against Madison.

In 22 of the team's 25 games, he totaled a blazing 602 points with a continuing display of accuracy. He sank 228 field goals in 424 attempts for an average of .535 and 146 free throws in 179 tries for a percentage of .817.

He led Coach Don Deterding's Warriors to an 18-7 overall record and to a tie for the

## Schmitt Heads National Wrestling Association

Bill "Red" Schmitt, Granite City High School wrestling coach who has led the Warriors to numerous honors, received an honor himself Thursday as he was elected president of the National Wrestling Coaches Association.

He is the first high school coach ever elected to lead the group.

Schmitt's election took place during the association's annual convention at the University of Maryland at College Park. He will assume the office in March 1973.

The association elects one year in advance. At the convention, Fred Davis of Brigham Young University, Provo, Utah, was installed for a one-year term as president, replacing retiring president Ed Parry of the U. S. Naval Academy.

This season, Coach Schmitt led the Warrior matmen to an 18-0 undefeated dual meet record, and the team combined the top spot in five major tournaments.

His record against Southern Illinois teams was extended to 165 consecutive victories this season.

## Warriors Place Three At Eastern Track Meet

Three Granite City High School track and field men were winners in their events at the Eastern Illinois University invitational meet Saturday.

Robert Kratz in the pole vault tied the meet winner and the meet record with a vault of 13 feet 6 inches, the second record in the event due to the number of misses.

In his best high school effort, Brad Hiles hurled the shot put 51 feet, 11 1/2 inches to earn second place in the competition.

At the grueling two-mile event, Howard Bryant lead all the way into the last lap but ran out of steam and fell to third. His finishing time was 16:05.3 seconds. Later he needed a mile in 4 minutes, 35.3 seconds, his best effort, but failed to place in that event.

Good Showing  
Marking showings but not placing were Tom Stephens who finished the 800 in 2 minutes, 4 seconds. Dave Bell who cleared 12 feet in the pole vault, 35.3 seconds, his best effort, but failed to place in that event.

## Levee Board Ok's 1972 Tax Levy

A new 1972 tax levy of \$1,283,130, a decrease of \$38,625 below last year's levy, was adopted by the board of trustees of the East Side Levee and Sanitary District at a special meeting in East St. Louis Friday.

Passage of the tax bill clears the way for the sale of anticipation warrants to provide operational funds. The district has been broke for the past two months and was two weeks late in meeting its Feb. 10 payroll.

Jack Hennes, executive vice-president of the St. Clair County Taxpayers Association, said the levy appeared justified by the budget, but he suggested the board review the budget with a view toward making cuts in proposed expenditures wherever possible.

Hennes pointed out the levee district tax rate should drop about 6 cents per \$100 assessed valuation in 1973 because obligations for bond and interest payments are scheduled to be lower next year.

Alton won the event with 41 points and East St. Louis was second with 38.

"If we are going to keep up with Alton and East St. Louis, it will take an all out effort this season, but I feel we can do it," Miller predicted. He explained, "We need some track work but I think we will be able to hold our own on the track and pick up some points in the field events this season."

Alton will be here at 4 p.m. Thursday for a practice meet. No scores will be kept. Miller said if the weather permits the meet will be held outdoors and spectators will be welcome but if it runs in the indoor track, there are no facilities for spectators.

## 89 Births, 37 Deaths During February

The number of births in the Quad-City area during February decreased to 89 from the 95 recorded in January, according to the monthly vital statistics report issued by Granite City Clerk Robert W. Stevens.

A total of 37 deaths last month duplicated the January total but was one more than in February 1971 when 36 deaths were reported here.

Two fetal deaths were reported in February. There were no fetal deaths reported in either January or this year of February of 1971.

The totals for the first two months of the year compared to the same period in 1971 show births down from 180 to 184, deaths declined from 78 to 74 and fetal deaths up from one to two.

## Zaruba-Winkle Wedding At St. Elizabeth Church

St. Elizabeth Roman Catholic Church was the scene of the afternoon wedding Saturday of Miss Patricia Ann Winkle, a daughter of Mr. and Mrs. Daniel F. Winkle; 4202 Breckenridge Lane, and Private First Class Robert Stanley Zaruba, son of Mr. and Mrs. Frank Zaruba, 2514 Lynch Ave.

The Rev. Lawrence Mattingly performed the double ring ceremony at 2 o'clock before an altar decorated with bouquets of white gladioli and pom poms.

For her wedding, the bride chose a formal length gown of white organza over tulle, featuring an Empire waistline. A ruffled collar extending down the front formed a V-neckline, and the high rise waist was encircled with a satin ribbon ending in a bow. A narrow ruffle caught the long tapered sleeves.

Tulle motifs of Venice lace were appliqued on the bodice and sleeves and motifs were repeated around the full skirt above a ruffled flounce at the hemline.

A canelot hat of Venice lace, etched with four tulip appliques, secured the bride's cathedral length veil, and she carried a bouquet of yellow roses, baby breath and ivy streamers, centered with an orchid corsage.

A sister of the bride, Mrs. Kathy Ellis, was matron of honor. Miss Lois Rehms and Miss Jo Ann Stout, a cousin of the groom, served as bridesmaids.

They were identical gowns of orchid satin print designed with smoking at the highrise waistline, a softly ruffled collar and puff sleeves. They carried satin buttons accented the front of the bodice with a small satin bow.

Each attendant wore a Dutch style band of sash print fabric, centered with a satin bow, attached to a floor length orchid veil. They carried arrangements of yellow tulips festooned with matching colored ribbons.

## Legal Aid Service

Information Told

A. Robert Kasson of Glen Carbon, an attorney working with the Madison County Legal Aid Services, was guest speaker at the fourth in a series of "Family Life Education" programs held Thursday afternoon at Kirkpatrick Home Recreation Center.

Kasson, who works with indigent families requiring legal assistance, described the types of cases handled by the service and those eligible to receive free legal counsel.

The Family Life series is being sponsored here by the Illinois Children and Family Service agency. Mrs. Donna Betts, an agency representative, said participation in the program is open to all residents of the housing projects. The general public also is invited to attend.

On Thursday, March 23, a Granite City police officer will discuss law enforcement problems and show a movie, entitled "Every Day, Every Hour." The program will start at 1:30 p.m., Mrs. Betts said.

Mrs. Betty Wilkins, president, was in charge of the business session. A donation also was authorized to the Carleton Fund at Arlington National Cemetery, Washington, D.C.

Auxiliary members agreed to volunteer their services to aid the Multiple Sclerosis drive, set Saturday and Sunday, and to visit an area nursing home and shelter care homes on a monthly basis, taking gifts and refreshments.

Chairmen reported a package has been mailed to a serviceman overseas, and said a total of 27 birthday, get well and sympathy cards was mailed in February.

A letter, entitled "Remember Me I'm Your Flag," was read. It was decided to take part in the DAV Auxiliary-sponsored "Parade of Flags" project on Memorial Day.

Amvets and Auxiliary division clubs will convene for a conference Sunday, March 26 at Post 31, Mrs. Wilkins announced. Several state Amvets officials are expected to attend.

Officers at the meeting were Pauline Wickham and Charlene Sanders. Prizes were awarded during the social hour to Mrs. Sanders and Mrs. Etta Clements.

## Independence an Issue Facing Senior Citizens

FRANK CORRIK  
Capitol News Service

Q. How independent are our retired citizens? — K.D.L.  
A. Independence should not be thought of as a gift.  
The retired citizen asks not for the gift of independence but the right — the right to an independent income, the right to maintain his health without the help of charity, the right to live with as much independence as his strength permits.  
The retired citizen asks, in short, for the right to opportunity, the opportunity to be independent, to provide for himself, to work if he wants, to stand on his own merit and ability.  
The retired citizen cherishes independence as he cherishes life.

Let the opportunity for independence forever be preserved.  
Q. My husband and I are interested in an adequate provision for handling our retirement income.  
Should we invest in different securities such as mutual funds, annuities or common stocks, solely on our joint ownership? — Mrs. H. V.

A. Before you act, don't adopt a "do-it-yourself" approach. Get legal advice.  
Joint ownership may or may not be right for you. Regardless of its popularity, your attorney will caution you against the creation of joint ownership of your property, until all possible advantages and disadvantages are carefully weighed.

Q. An alien has worked in employment covered by Social Security for over 10 years but does not reside in the United States. Can he still collect his Social Security benefits? — Mr. E. P.  
A. In most cases, the alien would be able to collect his Social Security benefits.  
There are exceptions, however, and it is best to check with any Social Security office.  
Outside the United States the place to check would be the nearest office of the American consul.

Q. My wife receives \$109.30 from Social Security each month and I get \$157.30. Would there be any change in her benefit if I should die? — Mrs. B. H.  
A. In the event of your death, your widow's benefit would be \$130.30, which is 82½ per cent of your rate.  
Q. How much was the Medicare's hospital plan increased beginning Jan. 1, 1972? — C. K. A.  
A. As of Jan. 1, 1972, a Medicare patient pays the first \$65 of his hospital bill, compared with \$60 during 1971.  
If in the hospital more than 60 days, he pays \$17 of his

daily bill against the \$15 a day during 1971, up to a total of 90 days.

During the 1971 White House Conference on Aging, what did President Nixon ask Congress to do?  
A. President Nixon asked Congress to assist persons preparing for retirement by giving income tax deductions for pension contribution and by preserving pension rights for those who leave or change jobs.  
He outlined his program, which he said would "substantially enhance the retirement security of the nation's work force," less than a week after making a pledge to delegates at the White House Conference on Aging that he would propose a pension reform program.

The President said his proposal was designed to assist those who one day will be among "retired Americans whose independence and dignity depend on large measure on an adequate postretirement income."

The program could enable as many as 14 million workers, most of them with incomes below \$15,000 a year, to claim tax deductions that would trim federal revenues by \$480 million annually.

Employees who wanted to save for retirement through a private pension plan or supplement an employer-financed pension could claim a deduction of up to \$1,500 a year or 20 per cent of their income, whichever amount was smaller.

Q. I'm 57 and have been widowed twice.  
My second husband died four months after our marriage. Will I be eligible for Social Security benefits on either account?  
Both men were receiving Social Security before they died.  
— Mrs. O. W.

A. You will probably be entitled to benefits on your first husband's account.  
If your second husband's death was the result of an accident, then you would be potentially entitled on both accounts and Social Security would pay you the higher benefit.

Q. In my town I own a piece of property that the town says they want for a firehouse. Can they make me sell it to them?  
— Mrs. S. M.

A. Yes. The procedure is known as the right of eminent domain—that is, the right of the state government to take private property for a public purpose upon just compensation.

"Reducing our fleet operation is another of the steps being taken to meet increasingly stringent budget requirements," Dr. B. D. Hudgens, vice-president for business affairs, said.

## State to Advance Funds for Sewage Treatment Projects

Granite City PRESS-RECORD  
Mon., Mar. 13, 1972 Page 11

To end "intolerable delays" in cleaning up Illinois streams, Gov. Richard B. Ogilvie has announced that the state will advance needed funds to hundreds of Illinois communities.

At a news conference in Chicago last week, Ogilvie declared:

"The heart of the problem is the unwillingness of Congress to provide adequate funds now for the federal share of sewage treatment plant construction projects."

"Intolerable delays have resulted, affecting some 600 Illinois communities who face federal matching control deadlines. We cannot afford to wait for Congress to save our lakes and streams. Illinois citizens voted in 1970 to clean up our waters by passing the \$700 million Anti-Pollution Act."

"The funds were to provide 25% of the cost of construction,

the federal government was to provide 55% and local sources 20%."

"Although the Congress promised the money, it has never appropriated nearly enough to do the job."

**Bond Funds Available**

"State bond funds are available now to advance the federal share and get construction under way. When the Congress finally is moved to act, the money will be reimbursed to the state."

"This pre-financing plan will eliminate any further delays in this vital program," and the state's action will insure that the local property taxpayers do not have to pay for the failure of the Congress."

Ogilvie said current projects ready to be built this year will require an estimated \$183 million in state funds as advances

on the federal share—in addition to the normal state share.

One of the largest projects which has been delayed is the work required for the North Shore Sanitary District, the governor said.

Completion of the work will end all municipal pollution of Lake Michigan from Illinois sources, he noted.

Other major projects have been delayed in Aurora, Batavia, Belleville, Bloom Township, Bloomington-Normal, Charleston, Collinsville, Danville, Decatur, Elmhurst, Elgin, Geneva, Glen Ellyn, Granite City, Joliet, Kankakee, Lake County, Macomb, Matteson, McHenry County, Moline, Naperville, Peoria, Quincy, Rockford, Rock Island, St. Charles, Urbana-Champaign, Wheaton and Woodstock.

Ogilvie continued:

"We estimate that by June 30 total federal funds of only \$183 million will have been pro-

vided for projects in which the federal share is \$348 million.

**Use State Funds**

"We intend to make up this difference by using proceeds of the state's \$700 million bond issue—while intensifying our efforts to get Congress to act."

Last year the sale of \$300 million in bonds was authorized, and authority to sell another \$200 million will be sought from the General Assembly, Ogilvie said.

Ogilvie said he had conferred at length several times with William Ruckelshaus of the Federal Environmental Protection

Agency. The governor continued:

"He has given us a firm assurance that legislation will include repayment to Illinois—that we will not be penalized for coming to the aid of our communities." He continued.

"Only a handful of communities have unused resources that would permit them temporarily to pick up the 35 per cent share that has not been forthcoming."

"Therefore, unless we are willing to accept further delay, the only recourse is for the state to come to the rescue."

## EVERY DOLLAR YOU SAVE IS A BOOST TO THE ECONOMY.

Some people would have you believe that saving money is a disservice to the economy of this country. Nothing could be further from the truth.

Your money is loaned out to build new homes and churches and shopping centers, and low-cost multiple dwellings.

And that means jobs. Jobs for carpenters, bricklayers, plumbers, road-builders, painters and a host of other occupations. Jobs for the people who cut the timber, make the bricks, manufacture the plumbing materials and paint.

The list is endless. It goes on and on. Your savings working to build the economy while they are building for your future.

It has been estimated that every dollar provided by a Savings and Loan creates four dollars of new economic activity. As a result, the \$38 billion we loaned in mortgages last year generated \$152 billion in the economy.

Do something good for yourself. Open an account at a Savings and Loan Association. We'll put your money to work—for you and for the country.

# Circuit Clerk, Recorder Races Spark County Primary March 21

For State Representative Auditor Recorder of Deeds

Opposition for two county offices and a three-way race for two state representative posts on the Democratic ballot will highlight the March 21 primary election at the county and district levels.

Voters will go to the polls in what is expected to be a heavy primary turnout to nominate party candidates for national, state, district and county offices, subject to the Nov. 7 general runoff election.

Polling places will open at 6 a.m. in the Quad-Cities and throughout the county, and will close at 6 p.m. Voting machines will be used.

National issues and a Democratic presidential primary fight between Senators Edmund Muskie and Eugene McCarthy are expected to contribute to a heavy vote, along with the Democratic race for the gubernatorial nomination between Lt. Gov. Paul Simon and Dan Walker. There also are Democratic battles for the U. S. Senatorial nomination and for lieutenant governor.

At the county level, the only contests again are on the Democratic ballot. Willard Portell, incumbent Madison County circuit clerk, is opposed by Robert C. Zitt of East Alton.

Three Democrats are seeking the nomination as county recorder—Von Dee Cruse of Granite City, Blair Watson of Edwardsville and Ronald P. Lucas of Maryville.

The race for two Democratic state representative posts

is between the two incumbents—Horace Calvo of Granite City and Leland J. Kennedy of Alton—and a third candidate, a newcomer to the political field, William Kinder, a Granite City attorney.

**Elected in Primary**  
State Representatives are elected in the primary since the voters nominate only the same number of candidates as there are legislative posts—in this instance, two Democrats and one Republican. Therefore, the two representative candidates who receive the largest number of votes will be elected. On the Republican side, incumbent State Rep. Robert Walters of Alton is unopposed.

On the Democratic ballot, State Senator Sam Vadala-bene, Edwardsville Democrat, has no opposition on the Democratic ballot. There is no candidate for state senator on the Republican ballot, although one is certain to be nominated by write-in balloting.

The state representatives and the state senator will be chosen in the 56th Legislative District. In past years, the senator and representatives were elected by the voters in the 56th district. The 56th district includes the Quad-Cities and eight other Madison County townships.

On the Democratic ballot, Nicholas Byron of Edwardsville is an unopposed candidate for state's attorney, while Thomas M. Welch of Collinsville is the unopposed Republican candidate.

The other candidates who are unopposed are:

John Kraynak of Granite City, Democrat, incumbent county auditor; M. Don Hubach, East Alton, Republican, for county auditor; Thomas Burke, Alton, Democrat, and Robert Thomas of Granite City, incumbent, Republican, for county coronor.

**Previously Unopposed**  
Congressman Melvin Price (D-East St. Louis) is unopposed for re-nomination in the Democratic ballot, but three Republicans are seeking the GOP nomination in the 23rd district. They are Robert Mays, Scott R. Randolph and Harry Lutz, all of East St. Louis.

There are no contests for the two Madison county nominations to the East Side Levee and Sanitary District on either side of the Democratic ballot. City filed as a candidate for the levee board trustee nomination on the Democratic ticket. He has announced his withdrawal.

He asked his backers to give their support to Ebersoldt and Robinson. Three other members of the levee district board will be elected in St. Clair County.

Republican candidates also are running without opposition are Ralph Astorian, Granite City recorder of deeds, and Lloyd Bentley, Wood River, Circuit Clerk.

## EDMUND KUCHARSKI

Republican

Assistant Secretary of State Edmund J. Kucharski, 56, seeks the Republican nomination for Illinois secretary of state.

He has been elected to the Chicago City Council, clerk of the Superior Court, recorder of deeds and Cook County treasurer—the third largest money-handling office in U. S. metropolitan government. In each case, he was opposed by a strong Downstate candidate and led his Republican running mates by more than 450,000 votes.

In 1970, he made his first bid for statewide office as the Republican candidate for state treasurer. He came within 88,700 votes of winning against a strong Downstate candidate and led his Republican running mates by more than 450,000 votes.

In 1968, he was appointed trustee of the Metropolitan Sanitary District of Chicago and led a one-man campaign against payroll padding and restrictive bidding.

In 1962, then Sheriff Richard B. Ogilvie—now governor—named Kucharski as undersecretary.

In December 1970, Kucharski was appointed assistant secretary of state by Secretary John W. Lewis. Working with Lewis, he expanded computer processing systems to increase the speed of releasing Illinois license plates, safety certificates and the processing of driver's licenses.

In 1971, Kucharski participated in a crackdown on "gypsy" truckers operating illegally in Illinois. Investigators arrested more than 3,500 violators, and fines levied brought more than \$1,300,000 to the state.

Kucharski attended Lindbloom High School and the University of Illinois. He was married in 1941.

He is married and has two married children.

# Williams Stresses His Residence in Downstate As Factor in Campaign

By JERRY OWENS  
Copley News Service

Springfield — The "forgotten man" in the March 21 primary is W. Dakin Williams. Remember him?

The 53-year-old Collinsville attorney is making a third try for the Democratic nomination for U. S. senator, although he was not on the ballot in the previous campaign.

The colorful brother of eccentric playwright Tennessee Williams considered running in 1962 against Bill Clark but was out in 1970 when his petitions were ruled insufficient to enable him to appear on the ballot.

He is the lone primary opponent of organization-backed Democratic Sen. candidate Roman Pucinski.

"Dakin" keeps right on campaigning and placing expensive media ads as if he were a credible candidate in a hotly contested race.

In his previous campaigns, Williams promised to bring into Illinois his brother and his law firm, the Williams & Williams law firm.

Williams wrote his maiden campaign speech. If that's true, she's still got a lot of fire left in her, for the speech is a bitter tirade against President Richard Nixon for, among other things, playing ping-pong with the enemy.

Williams says his entire platform is "the politics of love and peace." "Because all current problems may be solved by the peaceful application of these principles."

His campaign photos even include a cross in them. "Universal love can only be found in the principles of Jesus Christ," he states.

But his religious beliefs don't offer much besides generalities about how to face the national and international problems of 1972.

"I'm spending a lot of money," Williams says. "Running a lot of television, radio and newspaper ads. I'll probably spend \$30,000 to \$50,000 — all for the family."

"I haven't raised any funds. I won't owe anyone any favors if I'm elected."

Williams stresses the fact that he is a Downstate. Pucinski is from Chicago and so is the most Republican candidate, Sen. Charles Percy. The other Illinois senator, Adlai Stevenson, is from Chicago.

Williams calls Pucinski "a patsy for Percy" and says Percy should allow the state of Illinois to be run by the state of Illinois.

No one expects Williams to defeat the daylights out of Pucinski by polling a big vote in the primary. But he provides some diversion in an election where most candidates offer doomday predictions instead of peace and love.

Williams never did materialize, but he's got a new approach this year. He's relying on his 58-year-old mother.

## Boilermakers Ok New Contract at General Steel

A three-year agreement between the Castings Division of General Steel Industries and Boilermakers Local 530 was reached Thursday evening and was ratified by the union membership at a meeting in the Labor Temple at 9 a.m. Saturday.

The agreement calls for approximately 7% increases in wages and fringe benefits each year over the three years. Retroactive pay to Dec. 2, 1971 was included. The new contract will expire Jan. 31, 1975.

The Boilermakers have been working on a contract extension since their former contract expired Dec. 1, 1971, as have Machinists District 9 and the St. Louis Association of the Patternmakers' League of North America.

Negotiations between GSI officials and the two unions still without contracts are underway although no meeting has been set for this week.

The local plant is recovering from an eight and one-half week strike by United Steelworkers of America Local 1022 which ended Jan. 17. A company spokesman said production is nearly at the pre-strike level and 1,150 employees, hourly and salaried, now are on the payroll.

INSTRUCTIONS AFTER CLOSING  
THE CURTAIN

NOTE: At Primary Elections you are  
confined to make selections in only one  
party. The Party of your choice in which  
you declared yourself to be a member.

Also all voters should vote their choice  
of school trustees and questions.

On the ballot shown at the right you will  
find the title of office and the names of the  
candidates. Turn down the pointer at the  
right of the candidates you wish to vote for  
until an ☐ mark appears adjacent to each  
candidate's name and leave the ☐ mark

Leaving the pointers down in their vot-  
ing position, pull the red handle of the  
curtain lever to the left as far as it will  
go and leave it there (this will register your  
vote and return the pointers to their first  
position, after which the curtain will open).

A FEW WORDS OF EXPLANATION,  
MACHINE VOTING

No votes are registered until you pull the  
curtain lever to the left to open the curtain.  
You can therefore make as many changes  
to your ballot as you wish while the cur-  
tain lever is at its extreme right position.

The machine is so arranged that you can-  
not turn down more than the proper num-  
ber of pointers for an office. For example,  
if only one candidate is to be elected to  
any office you can turn down only one  
pointer for that office. If more than one  
candidate is to be elected to an office, you  
can turn down as many pointers up to the  
number of candidates to be elected to that  
office.

There is no danger of anyone knowing  
how you vote, as the movement of the cur-  
tain lever to the left records your vote and  
returns the voted pointer up to its unvoted  
position before the curtain begins to open.

Pull the red handle of the curtain lever  
down to the left side of the machine from the

INSTRUCTIONS AFTER CLOSING  
THE CURTAIN

NOTE: At Primary Elections you are  
confined to make selections in only one  
party. The Party of your choice in which  
you declared yourself to be a member.

Also all voters should vote their choice  
of school trustees and questions.

On the ballot shown at the right you will  
find the title of office and the names of the  
candidates. Turn down the pointer at the  
right of the candidate you wish to vote for  
until an ☒ mark appears adjacent to each  
candidate's name and leave the ☒ mark  
showing from this

Leaving the pointers down in their vot-

curtain lever to the left to open the curtain.  
You can therefore make as many changes  
in your ballot as you wish while the cur-

A FEW WORDS OF EXPLANATION,  
MACHINE VOTING

No votes are registered until you pull the  
curtain lever to the left to open the curtain.  
You can therefore make as many changes  
in your ballot as you wish while the cur-  
tain lever is at its extreme right position  
closed.

can turn down as many pointers up to the  
number of candidates to be elected to that  
office.

There is no danger of anyone knowing  
how you vote, as the movement of the cur-  
tain lever to the left records your vote and  
returns the voted pointer up to its unvoted  
position before the curtain begins to open.

## PRIMARY ELECTION MARCH 21, 1972 MADISON COUNTY ILLINOIS

20th CONGRESSIONAL-55th LEGISLATIVE

This ballot is to be voted in the following townships:

ALHAMBRA  
LEED  
MARINE  
NEW DOUGLAS  
PINE OAK  
SALINE

### Directions for Voting on the Voting Machine

Pull the red handle of the curtain lever  
lower left side of the machine from the  
left to right as far as it will go and leave  
it there. This will close the curtain around  
you and unlock the machine for voting.

### INSTRUCTIONS AFTER CLOSING THE CURTAIN

NOTE: At Primary Elections you are  
confined to make selections in only one  
party. The Party of your choice in which  
you declared yourself to be a member.

Also all voters should vote their choice  
of school trustees and questions.

On the ballot shown at the right you will  
find the title of office and the names of the  
candidates. Turn down the pointer at the  
right of the candidates you wish to vote for  
until an ☐ mark appears adjacent to each  
candidate's name and leave the ☐ mark  
showing from this

John Doe

to this

John Doe

Leaving the pointers down in their voting  
position, pull the red handle of the  
curtain lever to the left as far as it will  
go and leave it there (this will register your  
vote and return the pointers to their first  
position, after which the curtain will open).

### A FEW WORDS OF EXPLANATION, MACHINE VOTING

No votes are registered until you pull the  
curtain lever to the left to open the curtain.  
You can therefore make as many changes  
in your ballot as you wish while the curtain  
lever is at its extreme right (curtain  
closed).

The machine is so arranged that you cannot  
turn down more than the proper number  
of pointers for an office. For example,  
if only one candidate is to be elected to  
any office you can turn down only one  
pointer for that office. If more than one  
candidate is to be elected to an office, you  
can turn down as many pointers up to the  
number of candidates to be elected to that  
office.

There is no danger of anyone knowing  
how you vote as the movement of the curtain  
lever to the left records your vote and  
returns the voted pointer up to its unvoted  
position before the curtain begins to open.
